But Yip Achieves as a Factor in the Scientific Experiment.

The Graft Will Likely Be Examined To-Morrow.

Great Gratification at "The Evening World's " History of the Case.

It was reported at the Charity Hospita m Blackwell's Island this morning, that chante Gethius and his pet spaniel Yip were mill doing well.

The expressed belief was stronger than ever, a that the plaster cast encircling their kniting legs would be broken very soon, perhaps morrow, when it would be definitely known sbether the attempt to engraft a plece of dogone into the shin-bone of a human being has

This afternoon marks the beginning of the weatieth day since the primary operation was erformed. It was not thought probable that exposure of the graft would be made to lay, both because of the darkness, and also m account of the required presence of the hief operating surgeon at other institutions. there his professional services are needed each week day.

Sundays, however, the doctor's time is to pertain extent his own, and it is considered not unlikely that to-morrow will witness the xamination of the hoped-for union, which, i cessful, will be followed by the secondary peration, the severing of Yip's leg-bone wording her entirely from Johnnie and leavlag about an ince of her osseons tissue firmly own into his right shin-bone.

For months the landing has been is a neketty and actually unsafe conditi at nothing was done to remedy the situation. Since the boy and the dog case has been made public, however, the number of visitors has been largely increased at the Hospital, especially on Sundays. Not being able to see the celebrated patients they have been obliged to content themselves with visiting the buildings on the island, and the rotten old doct has come in for its share of inspection and banimous condemnation,

These adverse comments have evidently ad a good effect upon the Department officials, for to-day workmen were busliy ensaged in ripping up the rotten timbers preparatory to entirely rebuilding the docks.

James street? To those who know it the name calls up reminiscences of smells not to be smelled anywhere else on earth; of a par row street, full of mud and thronged with halfclad children; of low-browed "stores," cumbered and blockaded by merchandise, the uses of which are unknown to Fifth avenue and Murray Hill.

Lawyer Townsend's Death.

No Light on the Mystery of the Palisades.

The Murder Theories Not Sustained by the Prosecutor.

ENGLEWOOD, N. J., Dec. 6,-The second day of the investigation into the cause of the mys. shortly after THE EVENING WORLD reporter terious death of the wealthy retired lawyer. John Townsend, jr., whose mangled body was found at the bottom of the Palisades last Priday afternoon with a bullet-hole in his head, opened with a feeling that if the Coroner's jury are of the same opinion as the people of Englewood their verdict will be one of suicide.

The Coroner is believed to be at the end of his string. He has exhausted his theories and run down every tip and pointer. The inquiry has simply dwindled down to

drag-net investigation. The authorities taink they have sifted the mystery to the bottom. The only new witness summoned for to-day was Walter Evans, the backman who drove the man who identified Townsend's body from Fort Lee last Sunday. This man told Evans that the dead man was Townsend and identified the overcoat as the one Townsend wore when he left home.

Constante Post was asked why the stranger himself was not summoned and he replied: " On, it isn't necessary. Evans can tell us all about it,"

The crowd at the opening of the doors this orning was not as large as yesterday. Justice Cass and Donald McKay, President of the Local Protection Society, were among the first to arrive.

Coroner Hill and the Public Prosecutor were late in arriving and the spectators and jury waiting in the old barn which serves for a court-room stamped their feet and swore to

Ghastly Discovery Made in a Colored People's Burying Ground.

(SPECIAL TO THE EVENING WORLD.) CAMDEN, N. J., Dec. 6.—What appears be another horrible murder, near the sees of the famous LeConey and Annie Miller trage lies, at Merchantville, has been unearthed by Groner Jeffries, of this city.

While searching yesterday in Johnson's Cometery for the body of a young colored girl, he came across a grave containing the body of a man who is supposed to be James Good, a colored resident of Wilmington who mysteriously disappeared while on a visit to Merchan ville several months ago. The authorities are thoroughly pussled.

rope was found around the dead man's need, and the body lay in an old pine box staffed with salt hay. Old clotning lay under the boyy also, which was promptly removed to the amden moraue. Detectives Warner and Gallagher and Proce utors Jenkins and Ridgoway are at work on

the case, which, they say, is undoubtedly one People in the surrounding country are in a errible state of excitement. Rumors of all kinds are adost. One is to the effect that the ann had contessed to the killing of Mrs. Annie Miller and had been lynched; but it is known

The body is badly decomposed, and has probably been in the ground for six months. The Prosecutor's theory is that the man was murdered and then buried in the cometery at night by his assessine. This he deduces from he surrounding elreumstauces. A Coroner's jury has been impanelled and will immediately hold an inquest.
